AGENDA BUKUREŠŤ

Prezentace na výročním zasedání členů Asociace Michael

v knihovně Rumunské akademie

12. března 2014

RESUMÉ

Text prezentace, kterou promítala a komentovala Corinne Szteinsznaider na zasedání členů Asociace Michael, v angličtině tak, jak se mi podařilo pomocí OCR zpracovat fotografie obrazovek snímané během prezentace. Text není úplný a není nijak komentován.

Na začátku je zpráva Marie-Véronique Leroi o postupu prací na implementaci národních instancí portálu Michael do prostředí ePrints a převodu dat na italský server.

Poznámky k převodu jsou ve zvláštním souboru.

Další soubory obsahují překlady a připomínky k obsahu a grafickému designu po konání zasedání.

HORIZON 2020 – INTERESTING CALLS FOR MCA

2014

- REFLECTIVE-9-2014: Social Platform on Reflective Societies

2015

- REFLECTIVE-6-2015: Innovation ecosystems of digital cultural assets

HORIZON 2020

- REFLECTIVE-9-2014: Social Platform on Reflective Societies

3/06/2014

The social platform will bring together the relevant research communities

with stakeholder representatives, such as for example practitioners from the socio-cultural and artistic sectors (galleries, libraries, archives, museums, and other institutions), as well as policy stakeholders (at European, national and/or worldwide). A wide range of views and of stakeholder participation will be valuable.

- REFLECTIVE-6-2015: Innovation ecosystems of digital cultural assets

Support and promote access to and rescue of cultural heritage resources as part of research and innovation. Projects should enable new models and demonstrations of the analysis, interpretation and understanding of Europe's cultural and intellectual history and/or bring cultural content to new audiences in novel ways, through the development of new environments, applications, tools, and services for digital cultural resources in scientific collections, archives, museums, libraries and cultural heritage sites. The developed technologies or services should be generated in the context of humanities research perspectives (identity, culture, questions of place, historical and cultural knowledge alongside meeting real user needs. They should stimulate cross-border, multi-disciplinary research of Europe's cultural heritage, enabling partnerships and co-production of knowledge across sectors and partnership of researchers and users. Proposals should demonstrate appropriate reusing and repurposing digital assets, paving the way for wider exploitation of natural resources and boosting innovation.
