

Digital Service Infrastructure (DSI) – 1st April 2015 – 31th May 2016

Call : Connecting Europe Facility – Telecommunications 2014 - Europeana - Core Service Platform

Objective

DSIs are composed of 'core service platforms' which enable trans-European connectivity and interoperability, and related 'generic services' which link national and sectorial infrastructures to the platforms.

Under funding from the Connecting Europe Facility, Europeana will develop into a widely recognised platform of services and resources, not only for metadata references, but also for access to cultural content, tools and technologies, projects and other services.

27 partners

Stichting Europeana Europeana Foundation (EF) : leader

MCA : full partner **as the aggregator for museums**

Total Budget : 8,900,000 euros

MCA Budget : 229 589 euros

3

NEMO

- Partnership agreement signed
- Network of European Museum Organisations : independent network of national museum organisations representing the museum community of the member states of the Council of Europe.

www.ne-mo.org

Dariah

- Partnership with Dariah EU in negotiation
- Collaboration in training field & European projects
